## Planswift 9 Plugin Full Version 90

PlanSwift 9.0.1 Update: Planswift 9.0.1 is ready for use. To learn more, see our release blog post. You may be required to re-install the PlanSwift 9.0 product to take advantage of these updates. Planswift 9.0.1 features the following. It includes 1 minor and 1 major bug fix. Minor Update

### How To Install Planswift 9.0.1

Planswift 9.0.1 is compatible with any Planswift 9.0.x.x instance. This version is being installed with the rest of the planswift updates that were installed for a previous version of PlanSwift 9.0.x.x. You may be required to re-install the PlanSwift 9.0 product to take advantage of these updates. If you are unable to install the PlanSwift 9.0.1, contact Plankite Support.

**To Install:**

1. Navigate to a PlanSwift installation.
2. Go to File > New > Download file.
3. Select the download you are after.
4. Click Install.

**To Start Using:**

1. Navigate to a PlanSwift installation.
2. Select the PlanSwift file that you have just installed.
3. Click the green 'Start' button.

Please be sure to send us feedback on how PlanSwift 9.0.1 is working for you. Your feedback is important to us. The Windows Operating System x64 requires the Microsoft.Net Framework version 4.5.1. The Windows Operating System x86 only requires the Microsoft.Net Framework version 4.5. This means you may be unable to complete the upgrade if you have a Microsoft.Net Framework version lower than 4.5.1. Screenshots of

### PlanSwift 9.0.1 Planswift 9 Plugin Full Version 90 License Keys

If you believe your license keys are not working, please send us a screen shot of the error message to [support@planswift.com](mailto:support@planswift.com). In the subject line of the email, please provide your name, email address, and PlanSwift 9.0.x.x instance name and version. We will check your screen shot and confirm you are the recipient of this particular plugin license. If you have any issues, or questions
