Q: Return from method that throws Exception I have a method called save that can throw an exception (if the File object is null). However, I need to exit the method without leaving any information in the exception (in the original method). Is it possible to do so? for example: public void save() throws Exception { File objFile = new File("d:/temp/test.txt"); //if objFile is null throw an exception, ok //return null or default } A: Throw exception and catch it in save method. public void save() throws Exception { // whatever you want } public void method() { try { save(); } catch (Exception e) { e.printStackTrace(); } } 1. Field of the Invention This invention pertains generally to the art of methods and devices for processing an electrophotographic photosensitive member and more particularly to a method and apparatus for removing residual toner. 2.
