This is especially useful to link a legend to the world map. The map also allows you to scale the size and position of the map. The interactive map also allows you to trace the paths between two points. The arrows on the map points indicate the direction of the path between two points. You can zoom in to a higher level of magnification and zoom out to see more places. Scrolling to the right (using mouse scroll wheel) allows zooming in and zooming out, while scrolling to the left zooms out and to the right zooms in. The map can be clicked and dragged (using mouse) to switch back to the world map view. You can use the box to the left of the slider to choose a different range (
