the main problem is source code of this file iam trying to
download this file but i get this error now why i can
download through my browser fine but not through the
terminal with wget when i try to download the file then it
gives me this error Note: When cURL is used, there is no
encoding information in the content and you need to
explicitly state the Content-Type header. The default value

is "application/octet-stream". If you omit this, wget assumes it is text. Note also that Web servers often rely on the HTTP_DATE header to determine how to treat their responses, so wget cannot act alone to determine if a file is up-to-date. A: Try to download the whole repository instead of downloading a file from that repository. Botulinum toxin type A for treatment of hyperhidrosis and angioedema: A systematic review. OnabotulinumtoxinA (Botox) is a relatively new treatment modality for primary axillary hyperhidrosis (PAH) and focal or generalized hyperhidrosis (FH). Botox can also be used to treat regional angioedema and hyperhidrosis. Botulinum toxin is believed to stop the nerve impulses to the sweat glands. OnabotulinumtoxinA is the only licensed botulinum toxin. The purpose of this review was to identify studies that evaluate the efficacy of BoNT in the treatment of PAH and FH. A systematic search was conducted using the Medline database. In total, six studies were identified that evaluated the efficacy of BoNT in the treatment of PAH and/or FH. All studies reported improvements in objective and subjective outcomes. The majority of studies in this area are either non-comparative case series or case reports, with only two randomized, controlled trials conducted. A recent case report showed significant, long-term reduction in axillary sweating following multiple treatments with OnabotulinumtoxinA. Studies in other forms of hyperhidrosis are limited. Further, as highlighted by one of the case report studies, the long-term safety of OnabotulinumtoxinA use still needs to be confirmed. Despite these limitations,
