first time working on android. Please write to me on xdgameforum@gmail.com for more questions about gameplay and bugs. NOTE: If you use my version of Expandedroblox on a non-roblox game (e.g. Batman: Arkham city), the game will crash by leaving the game. NOTE: you will still have to download the Expandedroblox's in the Google Play store. I have two versions, one for android and one for the rest. If you install the two versions, you will see a conflict because I use the same roblox id numbers, so you need to download both,
