With over 4,000+ premium pieces of ROBUX, you can create any avatar or experience you want and play on any device. It's never been easier to create, code, and run your own games! Similar to Xbox LIVE, Roblox has a Community tab on its website that features users' comments, blogs, and news. It also has several in-game features that allow users to access news, search for content, play games, chat with friends, and visit their accounts. Content is either built by Roblox developers or by users themselves. Many games, of course, require in-game items such as Robux or game tokens. In addition, Roblox has been criticized for its subscription policy, which forces children to purchase Robux to unlock their content. Roblox is free to download, free to play, and free to create. With over 11 million active users, Roblox is the largest social platform for creative kids.
