Specifically, if the user is not logged in I want to show the "Login" or "Logout" link. If they are logged in, I want to show them the content they are seeing. My controller looks like this: public function get(\$id) { \$recipe = Recipe::findOrFail(\$id); \$user = Auth::user(); if(\$user == null) { return View::make('admin.recipe')->with('recipe', \$recipe); } else { return View::make('admin.recipe')->with('recipe', \$recipe); } } The view looks like this: @if(Auth::user() == null) Login @else id }}">{{ \$recipe->name }} @endif In my nginx config I have this: location / { auth_basic off; auth_basic_user_file /var/www/chef/cookbook/data/.htpasswd; try_files \$uri \$uri/ /index.php?\$query_string; root /var/www/chef/cookbook/public; } But I get this error in the terminal: RuntimeException in UrlGenerator.php line 87: Attempted to load class "UrlGenerator" from namespace "Illuminate\Routing\UrlGenerator". 5ec8ef588b
