As you can see, many of the releases are slow and troublesome to download, and theyre of large size (370 or more MB each!). That isnt true for Adobe. For CC 2018, the download links are dated May 23, 2017 and everything in the download table, save for some of the simple trial files, was automatically pushed out and cached on May 24, 2017 for folks to

easily access. So, here are the most current links to get the latest CC 2018 updates and a new version of Lightroom 2019 up to date, with all of the features, adjustments and enhancements for every one of your presets.
